

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is a clear example of the dangers of the era we live in where the airwaves are concentrated in the hands of a few corporations. In spite of all the talk about "liberal media" there is a clear trend toward the consolidation of media in the hands of a few conservative big business interests.

The plan to use the public airways free of charge to play political propagand for millions of viewers is a clear and present threat to democracy and an attempt to bypass federal election and media regulations.

Please do something to stop this.

Thank you.
